MEDIA RELEASE

Slow-No-Wake Lifted on Portion of the Rock River

For Immediate Release

Date: April 18, 2024

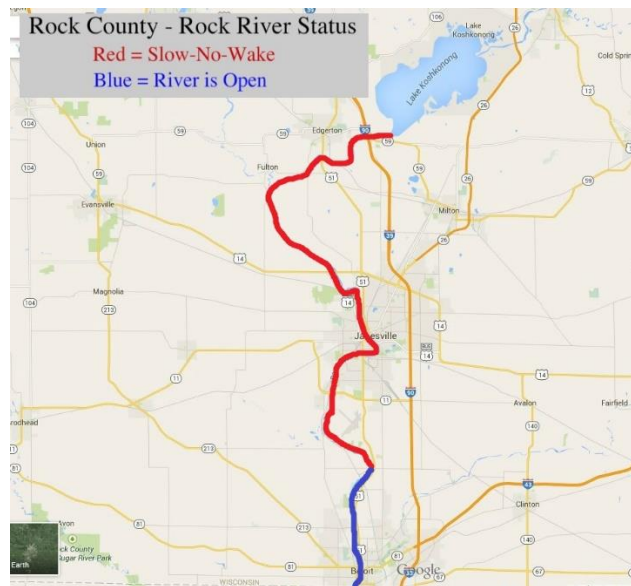

Contact Person

Deputy Trevor Lund
 608-373-3816

According to US Geological Survey Gauges, the water level for the Rock River in Afton is 8.49 feet. County Ordinance requires a slow-no-wake speed restriction be placed on the Rock River in Beloit when the water level exceeds 8.5 feet; therefore, the slow-no-wake is lifted from W B R Townline Road Bridge south to the Stateline.

The slow-no-wake is still in effect on the Rock River north of the W B R Townline Road Bridge as the water level exceeds 6.5 feet.

The slow-no-wake is still in effect on the Rock River at Lake Koshkonong to the Indianford Dam as the gauges show the water level at 8.99 feet, and the County Ordinance requires a slow-no-wake speed restriction when the water level is above 8 feet.

The Sheriff's Office is providing public notice of the Rock River's current slow-no-wake status. Deputies placed slow-no-wake signs along the river at all public access points between Lake Koshkonong and the Indianford Dam and the W B R Townline Road Bridge.
