**MEDIA RELEASE**

**Slow-No-Wake Lifted on Entire Rock River in Rock County, WI**

**For Immediate Release**

Date: August 17, 2024

According to the US Geological Survey Gauge, the water level for the Rock River in Afton is currently 6.47 feet. County Ordinance allows for an abeyance of the slow-no-wake speed restriction on the portion of the Rock River from the Indianford Dam south to the W B R Townline Road Bridge when water levels are 6.50 feet or less. Thus, the Rock County Sheriff's Office is removing the previously declared slow-no-wake speed restriction on this portion of the river. Deputies will update the signage at all public access points.

Slow-no-wake speed restrictions were previously lifted for the portions of the Rock River from Lake Koshkonong to the Indianford Dam and from the W B R Townline Road Bridge to the Stateline. Accordingly, the entire Rock River in Rock County is now open without slow-no-wake.
